

Online Registration is Here!

The WaterFront Center (WFC) is excited to announce the availability of online registration for our Junior Programs beginning January 18th 2010. Adult programs will be available in the coming weeks for online sign-up. While you're at it, please check out our other programs including adult learn to sail and racing classes, High School Sailing, and on and off site trips for schools and groups.

Before you begin the online signup process we ask you to create an account. Your account stores all of your contact information, giving you greater convenience when you register for programs. Automatically entering your contact information the WFC Registrar makes online registration a snap! Your account gives you access to some powerful tools including an option to see all the programs you have registered for, your balance paid and outstanding, any supplementary forms we will need in order to finish your registration, and more. In addition we are also going to add more features such as purchasing photos online. Your account page will have the dates of the programs you have registered for as well as any announcements specific to those class(es) or important information encompassing all of our programs.

Online registration is easy and convenient saving you a trip to the post office, time faxing over the forms or driving to our location. Everything is available on our website with step by step explanations and easy to use options. The WFC Registrar enables you to book your child for multiple classes, sign up multiple children for different classes, or multiple children each for multiple classes! Flexibility and ease-of-use were paramount when we decided to take on this project and we have put significant effort into making online registration effortless. We have incorporated many tools and options, with helpful aids and reminders to make sure your experience is world class. Registration will only take a few minutes, and after you are finished you will receive a confirmation email and receipt instantly for your records!

We are working hard to build a more inviting and friendly WaterFront Center, and continually raising the bar every day and all the time.

All of our patrons expect this of us, and as importantly, we expect it of ourselves.

David L. Waldo
Executive Director
