

HORIZON FUND

The purpose of The Horizon Fund is to provide for the ongoing capital expenditures required to maintain and strategically enhance The WaterFront Center's infrastructure assets.

Horizon Circle

While one-time gifts are gratefully accepted, we ask that patrons give special consideration instead to making a three-year pledge at a significant level so that we may most effectively manage our capital budgeting and investment.

Unless otherwise requested, donors to the Horizon Fund at any of the recognized donor levels will be listed in The WaterFront Center's Annual Report, receive a special gift of appreciation for their meaningful support, and receive invitations to special Horizon Fund events.

Planned Capital Investments

Replace the Floating Docks

Approximate cost: \$200,000

The floating docks are one of the major avenues connecting people to Oyster Bay here at The WaterFront Center. More than 20,000 people of all ages, backgrounds, and abilities (including disabled sailors), rely on these floating docks to provide easy and convenient access to the water, our fleet of sailboats, and our flagship, Christeen.

These docks are not only a platform from which we can provide education and recreation services, they also provide necessary storage to house our fleet of kayaks, paddleboards, and dinghy sailboats.

Replace Launch Boat

Approximate cost: \$90,000

Each season our Coast Guard inspected launch taxis people back and forth from boats to dock, logging more than 1,250 operating hours. A working, stable Launch is the vital link between the floating docks, our fleet of Sonars, and our flagship, Christeen. Without access to Sonars and Christeen, The WaterFront Center could not fulfill its mission in the same enriching and rewarding way we do today.
